- **Database:** MySQL
- **Others:** IoT, Raspberry Pi and Linux

Work Experience

Security Officer

Bidvest Noonan · Dublin, County Dublin, Ireland · Apr 2022 - Present

Technologies Used: Database for user access control and CCTV systems

Skills: Critical Thinking, Problem Solving, User Database Management, Teamwork and Communication

- Responsible for maintaining safety and security on-site, managing user access databases, and monitoring premises through CCTV. This role also helped me improve my English proficiency and strengthen my communication skills.

Freelance Web Developer

Empoderador Digital · Worldwide · Nov 2020 - Mar 2022

Technologies Used: Facebook Pixel, Google Ads, Google Analytics, SEO and Web Development

Methodologies: Scrum

- Developed and implemented digital marketing strategies tailored to client business models, leveraging Google Ads and Facebook Pixel integration to drive targeted traffic and optimize campaign performance. Managed website creation and customization, ensuring optimal site performance and security.

Python Developer (Sales Support Transactions Team)

IBM · Hortolândia, São Paulo, Brazil · Feb 2017 - Nov 2020

Technologies Used: Python, Selenium, Pandas, PyQt5 and MySQL

Methodologies: Agile

- Implemented accounts payable automation in PUMA and CFTS systems, automating 80% of manual tasks using Python, Selenium, and Pandas.
- Achieved second place in an internal IBM competition in 2019, demonstrating strong team collaboration and innovation skills.

Technical Support Level 1 & 2

IBM · Hortolândia, São Paulo, Brazil · Oct 2015 - Feb 2017

Technologies Used: TypeScript, MySQL, SAP and Active Directory

Methodologies: KPI

- Provided technical support for the Michelin client, troubleshooting problems via remote access and managing user accounts. Delivered support for systems and workstations, handled access permissions, and fixed software and hardware issues. Monitored key performance indicators to ensure quality and timely service.

Technical Support Representative

Nelri Informática · Campinas, Sao Paulo, Brazil · Mar 2015 - Oct 2015

Technologies Used: Linux and Windows

Methodologies: ITIL

- Provided technical support in Windows environments, including corrective and preventive maintenance of computers and systems. Delivered remote assistance, user support, network configuration, and basic maintenance of Windows servers. Utilized Linux tools for data recovery in critical situations.

Other Skills

Languages: Spanish, Portuguese, English (Full Professional Proficiency)
